# Multi-Panel BXD Ceiling System

Designed to work for you

**New extra deep, acoustic Ceiling Panels with outstanding sound absorption and design capabilities.**

The robust look of the BXD Ceiling System fits perfectly in large open spaces with a high level of noise like in airports, shopping malls or conference halls. With excellent sound control properties, BXD Ceiling Panels turn loud environments into spaces with a comfortable acoustic ambiance.

In addition, the new Luxalon® BXD ceiling system offers unique design possibilities and challenge the architect to incorporate these into his building.

## SIZES

## PERFORATIONS

In order to improve interior sound control, the Luxalon® panels can be supplied perforated. As a standard feature, perforated panels are supplied with a sound absorbing non-woven tissue glued into the panel, for enhanced acoustical performance.

**Traditional**

**Playful**

## Specifications

### DESIGN FLEXIBILITY

Luxalon® Multi-Panel ceilings provide interesting possibilities for directional room design. Our ceiling systems highlight versatility, allowing a variety of visual effects, including radial and diagonal patterns, finishes and curves. With the wide choice of colours\* available it is possible to create virtually limitless designs. No matter what the design, our linear ceilings have the looks you love. Whatever your project needs, Multi-Panel ceilings give you the freedom to think inside and outside the box.

### THE PRINCIPLE

- Eight panel types, varying in width and height
- Panels supplied plain or perforated
- All panels on one standard carrier
- The joint can be left open or closed with a joint profile.

30BXD, 30BD and 130B Ceiling Panel

\* Depending on panel width and height
